To Whom It May Concern,

I am pleased to provide this reference for Sportbeams Lighting as a recommendation for the services and product they can provide. At Texas A&M University we had the opportunity to work closely with Sportsbeams to upgrade the stadium sports light system at Kyle Field that hosts our home football games and major special events. I can confidently say that they are a skilled, reliable, and professional lighting specialist.

Sportbeams and their team have consistently demonstrated expertise, and their work has always met or exceeded our expectations. Their attention to detail and dedication to completing projects on time and within budget made them an invaluable partner to work with on enhancing the capabilities of our stadium sports lights system. I personally can attest to Sportsbeams work as experts in the sports lighting industry from their work at Kyle Field that has allowed us to improve the fan experience and atmosphere at our events as well as the functionality of our stadium lighting system with a fully integrated control system and complete autonomy for programming new lighting effects and shows for in stadium video production.

What stands out most about Sportbeams is their commitment to quality of work and understanding of the client's needs. They prioritize both, ensuring that all work is performed to the highest standards and fulfills the client's vision. In addition to their technical skills, Sportbeams has excellent communication and project management abilities, making them easy to work with and helping to ensure the smooth coordination of tasks across all teams involved.

I have no hesitation in recommending Sportsbeams for any sports lighting projects. They are dependable, thorough, and dedicated to delivering results.

Sincerely,

Kody Wood  
Associate Athletics Director, Facilities & Operations and Capital Projects
